

PROPOSED TEMPORARY ROAD CLOSURE OF RIDGE HILL, BUCKLAND NEWTON

I have received an application from BT, to close RIDGE HILL, BUCKLAND NEWTON from its junction with Revels Hill to its junction with Factory Lane, a distance of approximately 800 metres. The closure has been requested to allow BT to allow Openreach engineers safe access to work on overhead structures to connect customers. These works are programmed to commence from 25 February 2019 for 1 day with an end date of the 25 February 2019 between 0930 and 1530. The road closure is necessary for safety reasons, as the works will take place within the whole width of the carriageway.

BT will publicise the road closure in a number of ways: they will place information boards on the road in this area to inform the travelling public of the works; they will carry out a letter drop to local residents directly affected by the works; and they will sign a vehicular diversion route using the local road network. The following map shows the extent of the closure and the diversion route.

This document is for information only. However, if you have any concerns about this proposal, please contact Samantha Paulley (traffictteam@dorsetcc.gov.uk) by the 11 February 2019.
